Subject: NOCSAE/SEI Bulletin Regarding Lacrosse Balls

Date: December 2, 2019

It has come to our attention that SEI issued a User Notice on Wednesday, November 13, 2019 notifying consumers that SEI has withdrawn the Signature Lacrosse model 1.3 lacrosse ball in several models and colors from SEI certification. While SEI previously had a Signature model ball certified on their website containing the NFHS authenticating mark, at present time, there is not a single Signature model listed on the SEI certified list.

We have attached the SEI User Notice and included the link to the current list of SEI certified lacrosse balls for your convenience.

Thank you for your time and attention.
