Doodle®

DOODLE - SCHEDULING TIPS

The screenshot shows the Doodle scheduling interface in a web browser. The browser's address bar displays <https://doodle.com/create>. The page has a blue header with the Doodle logo, language selection (English), and a user profile (Chris Crider). The main content area is titled "STEP 1 OF 3" and "What's the occasion?". It contains a form with the following fields:

- Title**: Meeting with Coach Crider
- Location**: Room 702
- Note**: Bring Schedules, CPR Cards, Fundraiser Requests

A green "Continue" button is located at the bottom right of the form. The left sidebar includes a "Builder" section and a "123FormBuilder Now" section. The right sidebar features an "Ad" section, a "123FormBuilder" section, and an "Upgrade 123FormBuilder Now" section with a "Visit Site" button.

BAND

- BAND is the free communication app for groups trusted by team leaders around the world.
 - BAND is much more than a simple group chat. Each group on BAND gets a private space, packed with features like Board, Calendar, Polling, and Chat. The separate menus help distinguish 'work' from 'fun.'
 - BAND also has tons of great features for keeping your team informed, and even shows you a receipt of who has read your posts, so team members (and/or parents) can be held accountable.
 - BAND also allows you to send announcements via email/SMS. Conversations on BAND are simply smoother with no text limits.

WHAT'S NEW IN IOS 13

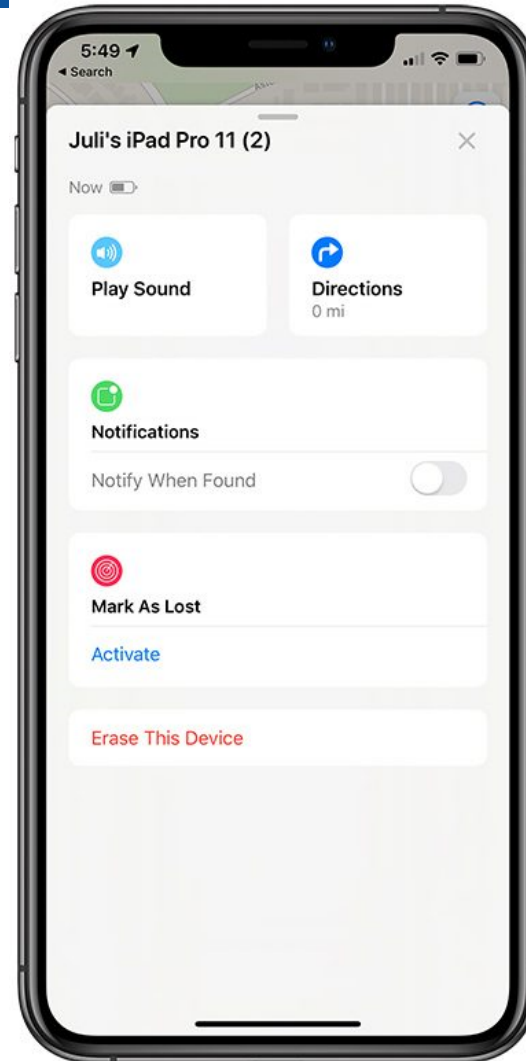

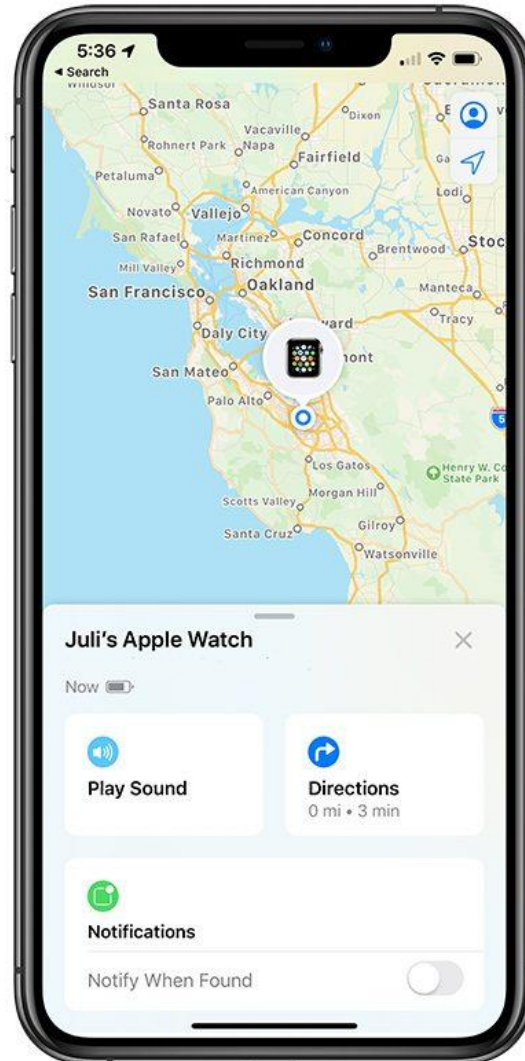

- Apple introduced the newest version of its iOS operating system, iOS 13, on June 3
 - iOS 13 Features
 - Find My
 - Reminders
 - Messages
 - Contacts
 - Notes
 - Mail
 - Files
 - Home and HomeKit

FIND MY

- The new Find My app combines the prior Find My iPhone and Find My Friends apps into one app that makes it easier to locate all your devices and your friends.
- Find My works like the previous Find My iPhone and Find My Friends apps, offering up your friends' locations and your device locations, but there's a useful new feature that lets you find a missing device even if it doesn't have a WiFi or cellular connection.

FIND MY

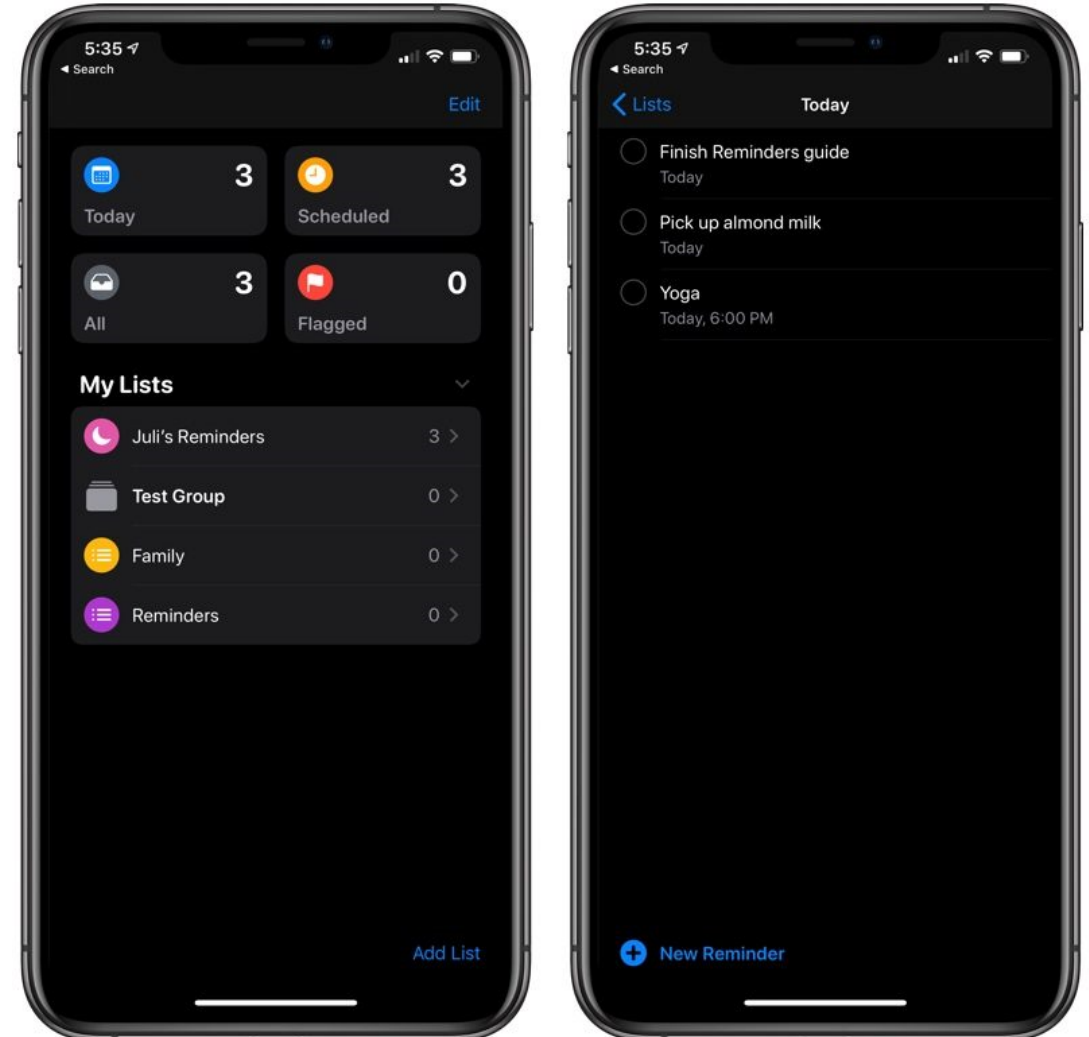

REMINDERS

- Apple overhauled the Reminders app in iOS 13 to make it more useful and more competitive with third-party to-do apps. The new Reminders app features an updated design organized into four sections: Today, Scheduled, All, and Flagged
- Reminders are organized into different lists, with customizable colors and icons. Under each reminder entry, you can create additional nested reminders, and multiple lists can be grouped together.

REMINDERS – DESIGN

- "Today" section for reminders that need to be addressed immediately
- "Scheduled" section for reminders that have a date attached,
- "All" section for viewing everything all at once
- "Flagged" section for your reminders that have a flag added to separate them out.

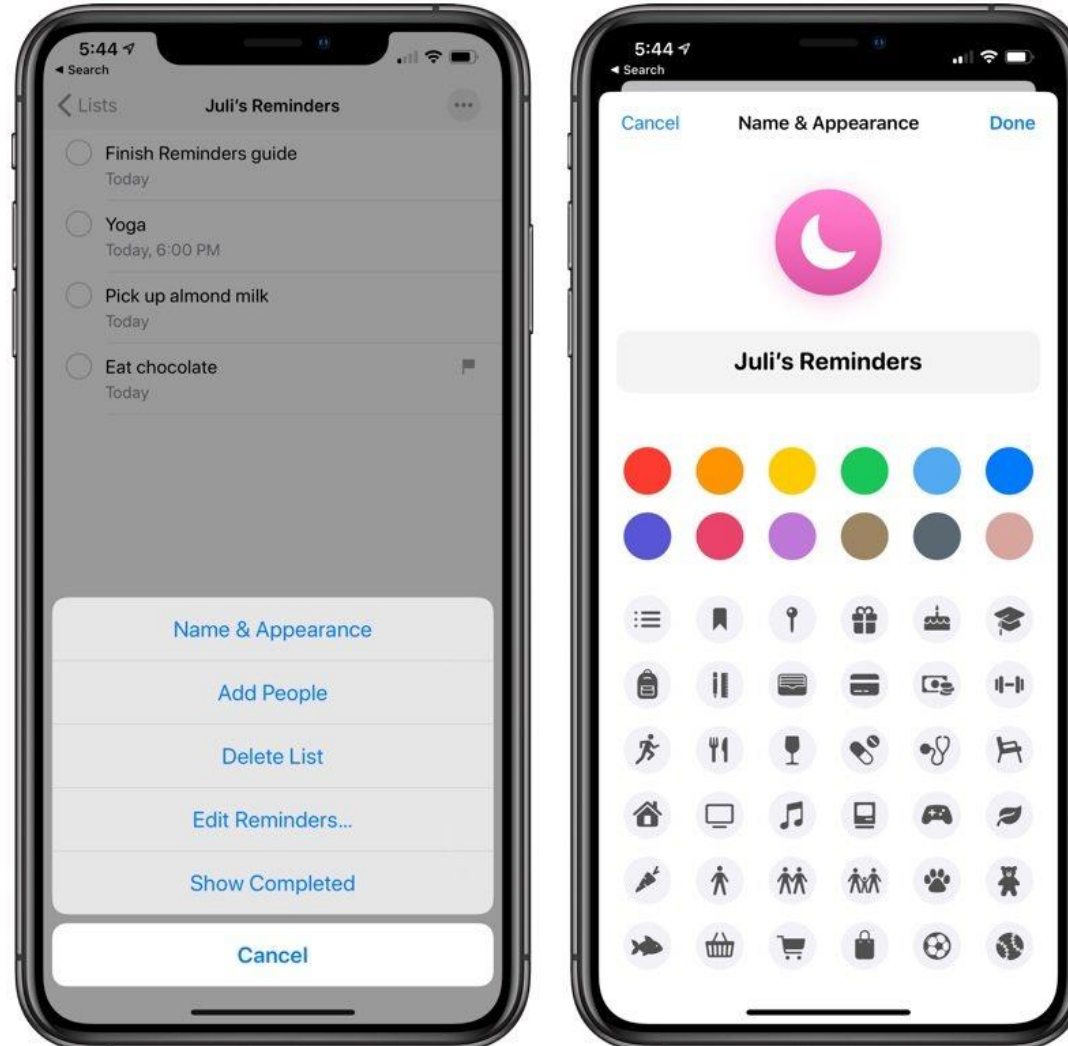

REMINDERS – LISTS AND REMINDERS

- Keep track of all the household chores you need to do along with your grocery list and your work projects
- All of your lists are displayed individually in the "My Lists" section, while the individual reminders in that list are also available in the different sections of the Reminders app.

REMINDERS

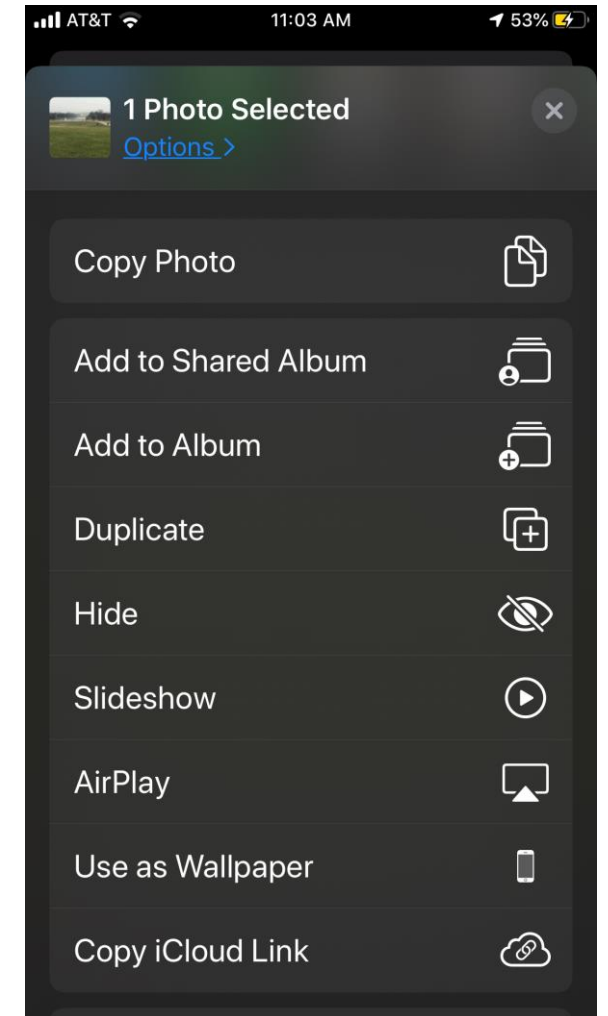

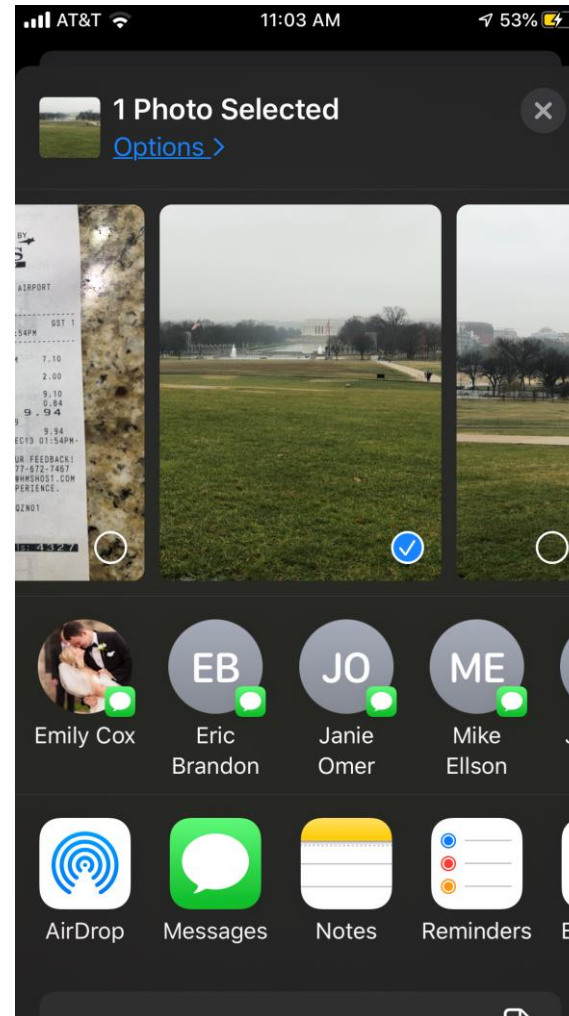

REMINDER SETTINGS

- Reminders can be set to activate in the following conditions:
 - When arriving to a location
 - When leaving a location
 - At a certain time
 - On a certain date
 - When messaging a specific person in the Messages app
- You can also combine these conditions when creating a reminder, so you can, for example, set a reminder to get milk on Tuesday at 4:00 p.m. when you arrive at the grocery store.

NEW CONTEXT MENU

- Easily share and save photos and files from different apps through one menu.

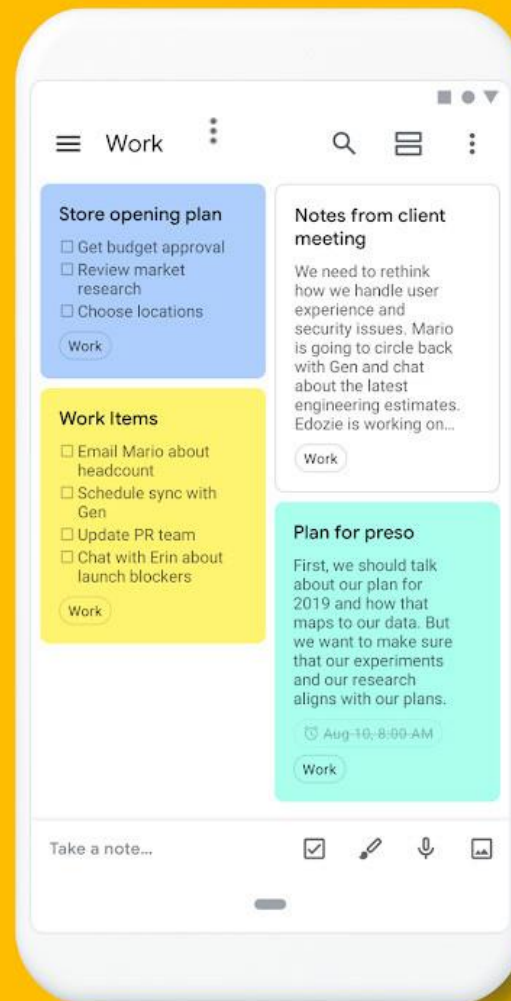

AIR DROP

- Enables the transfer of files among supported MAC computers and iOS devices over Wi-Fi and Bluetooth, without using mail or a mass storage device.
- Photos, videos, contacts, Passbook passes, Voice Memos, Map locations, and any and everything else that appears on a Share sheet.

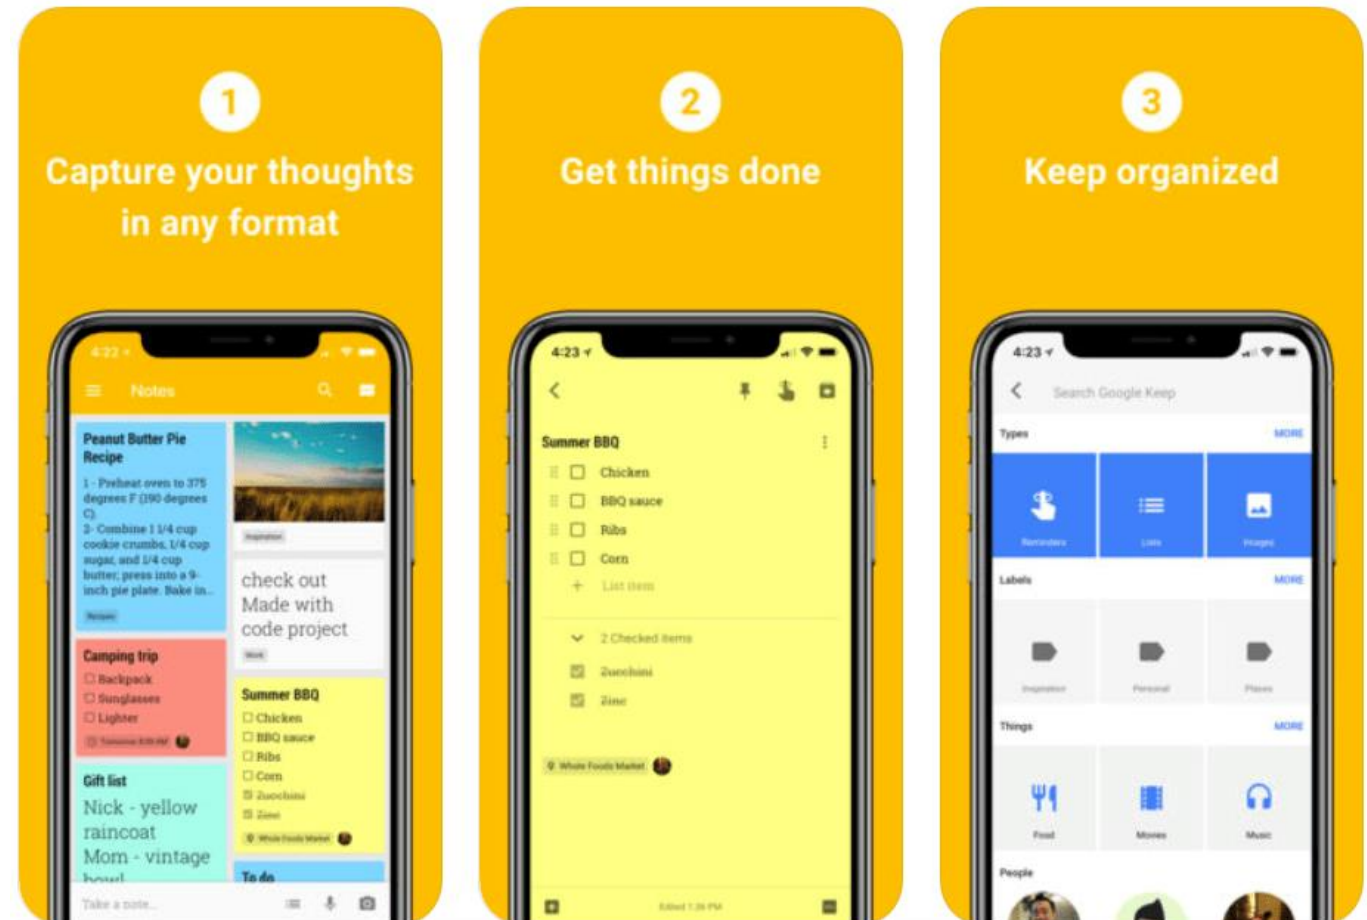

GOOGLE KEEP

GOOGLE KEEP

- Quickly capture what's on your mind and share those thoughts with friends and family. Speak a voice memo on the go and have it automatically transcribed. Grab a photo of a poster, receipt or document and easily organize or find it later in search.
- Find what you need, fast
 - Color code and add labels to notes to quickly organize and get on with your life. If you need to find something you saved, a simple search will turn it up.

GOOGLE KEEP

- Check List
- Pin Notes
- Collaborate with others
- Images
- Voice Recordings

SPIRIT APP

- Spirit is a radical new approach to student life. Designed with the student in mind, and proven to boost school spirit, save time, and increase attendance at events.
- Students can see what events are going on, learn more about them, and when they get to the event? That's when the fun starts. Students check-in to events using their smartphones and earn points for attending.

Spirit

SPIRIT APP

- **Event Management**

- Say goodbye to the days of creating posters and making announcements. You can focus your energy on making your event great, and they will handle the rest.

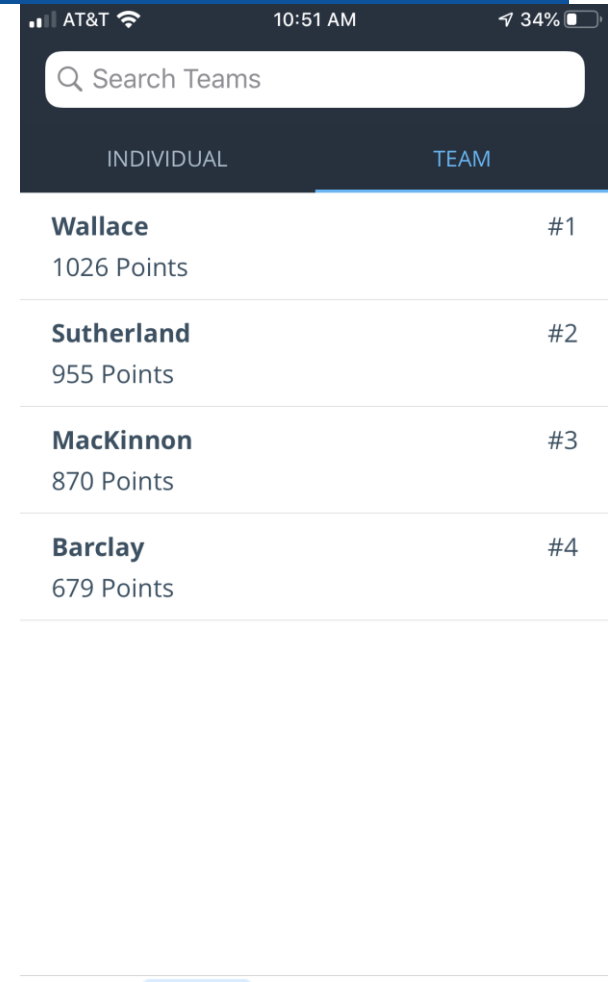

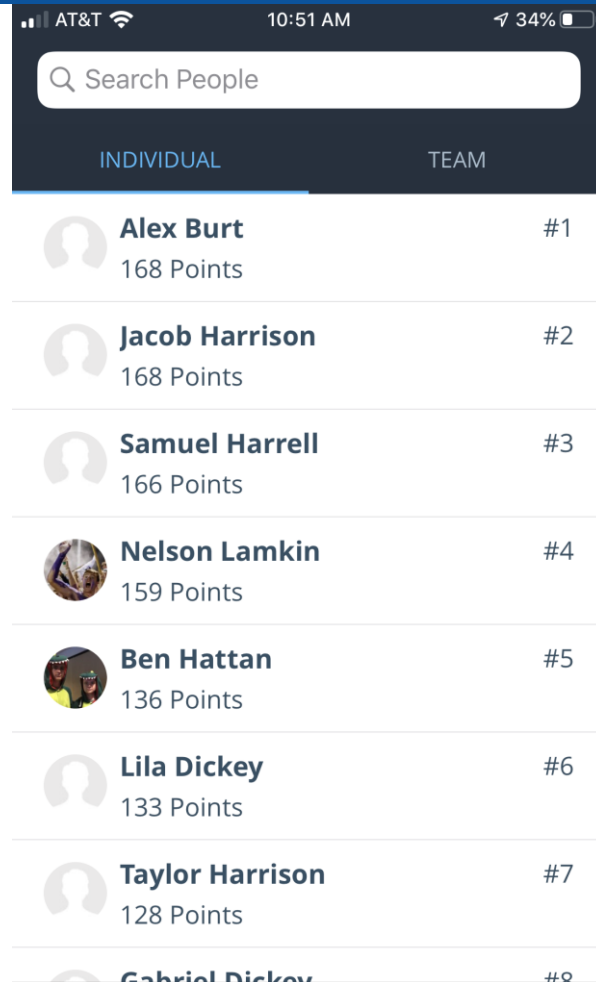

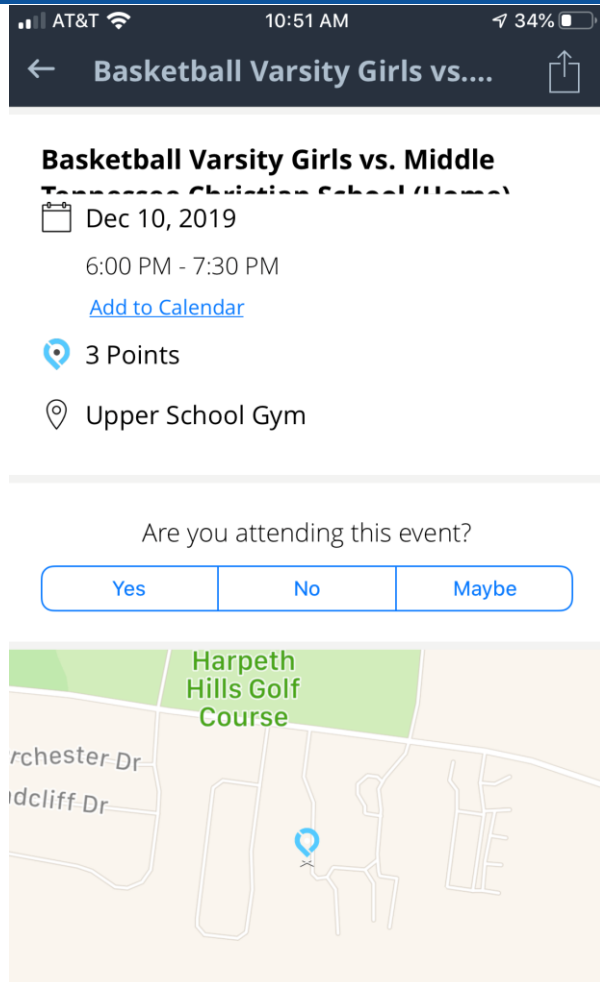

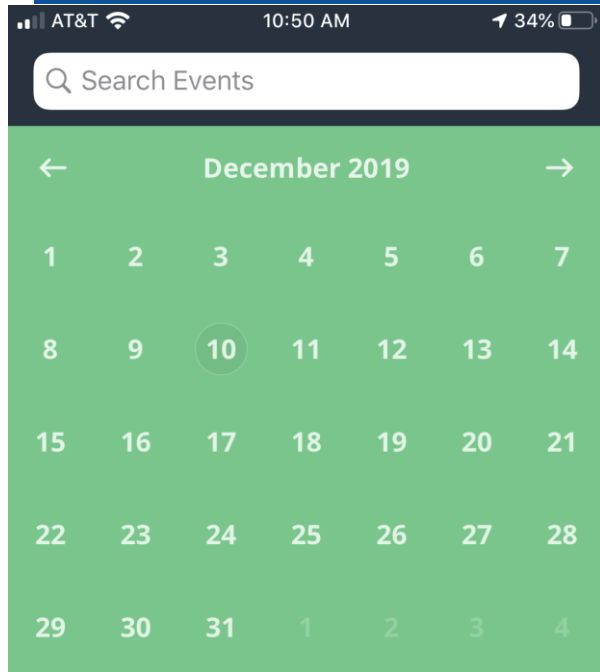

- **Points Tracking**

- You know how competitive students are, right? Well Spirit allows you to create competition in your school, and tap into that competitive spirit.

- **Better Communication**

- Instead of clogging everyone's inbox with another email that doesn't concern them, let Spirit send relevant and timely messages.

SPIRIT APP

Spirit is a student engagement platform for everything outside of the classroom, built to increase participation and improve communication in your school community.

ALL YOUR EVENTS IN ONE PLACE

All of your events can be accessed in one place. If you update Spirit, it updates all of your other calendars

PROMOTE WITH EASE

Focus your energy on making your event great, and we do the rest! Spirit handles event promotion, so the only finger you have to lift is when you click the "promote" button.

DATA YOU NEVER HAD BEFORE

Spirit enables you to analyze your events in real time. Spirit can let you know when your students are showing up to events, show you what type of students are attending events (by grade, gender, house), and much more.

INCENTIVIZE STUDENTS WITH POINTS

Spirit points are awarded to your school community members for their participation in school life. Award points for completing tasks or attending events and watch as your school spirit grows.

CREATE COMPETITION

You know how competitive students are, right? Spirit allows you to create competition in your school, and tap into that competitive spirit. All students are placed into teams which compete with each other to see which can amass the most points

KEEP EVERYONE CONNECTED

Between social media, websites, and fliers community members can get confused with what's going on. No More! With Spirit we automatically update all forms of communication saving you time money and energy to be used for more important school related obligations.

VS. CARROLL ACADEMY - 6:00 P.M.**

GRAMMARLY

- Grammarly's app automatically detects potential grammar, spelling, punctuation, word choice, and style mistakes in writing.
- It is available as a web or desktop editor, as a browser extension for Chrome, Safari, Firefox, and Edge, and as an app for both iOS and Android.

GRAMMARLY

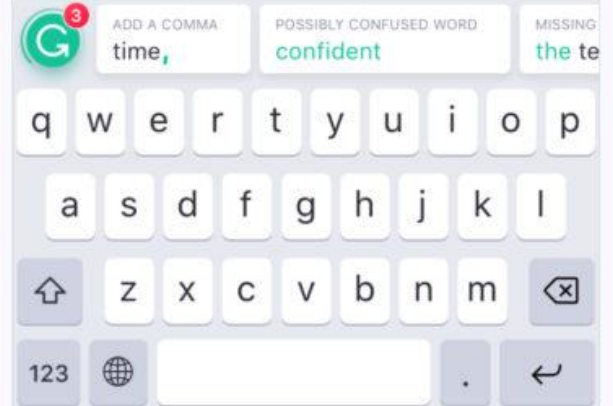

We'll deliver the signed contact on Monday April 2.
If you have any questions, please don't hesitate to reach out to Alice or myself.

Cancel Re: Onsite schedule Send

To: Brad M. (+)

Thank you for your time Brad. I'm confidant that my skills would add value to team.

KEY BOARD SHORT CUTS

- **Command-C:** Copy the selected item to the Clipboard. This also works for files in the Finder.
- **Command-V:** Paste the contents of the Clipboard into the current document or app.
- **Command-P:** Print the current document.
- **Command-S:** Save the current document.
- **Command-W** - Closes the active window you are currently in. Use *Option-Command-W* to close all currently active app windows.
- **Command-M** - Minimize the front app window to Dock, or press *Command-Option-M* to minimize all the windows belonging to the front app.
- **Command-L** - The fastest way to make a search or navigate to a Website *Command-L* instantly selects the address bar: start typing your query, and select the appropriate choice using the up/down arrows on the keyboard.
- **Option-Shift-Volume** - Press *Option-Shift* and volume up/down to increase or decrease the volume on your Mac in small increments. You can also use *Option-Shift* to change display brightness in small amounts.

What other apps are you using?
